BIO :
This artist was born in 1966.

BACKGROUND :
This painter, who is strongly committed to abstraction, is a professor at the Academy of Namur and Charleroi. His work takes him on a journey into a kind of sidereal universe where he moves between swollen volumes and more linear spaces, between masses and lines.

WORK :
Despite this, he cannot help but represent more figurative details: landscapes, engines, machines, unusual architecture. Hence the movement and dynamism that emerges from his canvases. He paints large and small formats and uses a wide variety of techniques: oil, acrylic, pastel, charcoal, walnut stain, quartz powder. Blues, reds, ochres, blacks, greys and browns are his favourite colours. Debatty draws us into an active reverie, into a dynamic that is unlimited but nevertheless conducive to deep meditation.
