ORIGINS, SOURCES and CONFLUENCES, the artist tells us about them :

THE GEARS : I am not at all a fan of mechanics! However, I admit to being somewhat fascinated by them.

WATER : came later, as I was more of a pyromaniac... It came through storms, clouds, and then foam, the latter two reflecting their respective metonymies.

BLUE : is crystal clear; water is not blue... it is transparent... blue is the colour of depth... And whites break up into nuanced ripples, while rare yellows dart in, browns camouflage the reds, and complement the complementary orange...

THE RESULT, like a cape; achieving a dreamlike tonic mechanism and, for the viewer, offering a journey into depth, the gaze is carried away in a whirlpool of fluidity, of rebounds and flows, of slides and ricochets; rocked by the waters, a finger in the eye of the cyclone of the gears...
